

Callfor Participation

We invite you to join us in **12th International Conference on Computer Science, Engineering and Information Technology (CSITY 2026)**.

This conference provides a premier international forum for presenting and discussing the latest advances in Computer Science, Engineering and Information Technology. As intelligent systems, digital infrastructures and computational methods evolve at unprecedented speed—driven by breakthroughs in foundation models, AI agents, next generation networking, cloud native systems, cybersecurity and quantum computing—CSITY 2026 serves as a vital venue for researchers, practitioners and industry innovators to exchange knowledge, explore emerging challenges and shape the future of intelligent technologies.

CSITY 2026 welcomes significant contributions that advance theory, methodology, engineering practice and real world applications across the full spectrum of modern computing. Authors are invited to submit high quality research articles, experimental studies, survey papers and industrial case studies that highlight progress in areas such as machine learning, generative AI, computer vision, distributed systems, high performance computing, AI security, vector databases, blockchain, digital twins, spatial computing and human AI interaction..

Highlights of CSITY 2026 includes:

- 12th International Conference on Data Mining (DTMN 2026)
- 12th International Conference on Signal and Image Processing (SIGPRO 2026)
- 13th International Conference on Information Technology, Control, Chaos, Modeling and Applications (ITCCMA 2026)
- 7th International Conference on Machine Learning Techniques and NLP (MLNLP 2026)

Registration Participants

Non-Author/Co-Author/Simple Participants (No Paper)

100 USD for Online (Without Proceedings)

490 USD for Face to Face (With Proceedings)

Here's where you can reach us: csity@csity2026.org or conferencecsity@gmail.com
